## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1, 3-8 and 10-14 are allowed.
2. The following is an examiner's statement of reasons for allowance:

None of the prior art of record teaches or suggests an image formation device that fixes toner images comprising a control module that, when the specification module specifies formation of the composite color image, controls to selectively adapt a fixation process, which fixes the transferred toner image on the recording medium, for formation of the composite color image, while controlling to selectively adapt a fixation process for formation of the monochromatic image when the specification module specifies formation of the monochromatic image, and an information acquisition module that acquires information on color of toner filled in each toner cartridge from each of storage elements mounted on multiple toner cartridges; wherein the specification module specifies formation of the composite color image or formation of the monochromatic image, based on the information on the color of toner acquired by the information acquisition module.
